Funding Approved for Co-location of Guadalupe County Magistrate Court and District Court

Las Vegas – On Friday, Governor Michelle Lujan Grisham signed legislation that included \$1,434,396 in capital outlay funding for a project to co-locate the Guadalupe County Magistrate Court with the Guadalupe County District Court on the second floor of the County building at 420 Parker Avenue in Santa Rosa.

The project would include the renovation of the existing space currently occupied by the District Court to accommodate the Magistrate Court as well. Co-locating the Magistrate Court with the District Court would allow for shared resources and the streamlining of judicial functions. The renovation would also improve the safety and security of both the District Court and the Magistrate Court and create one location for all Judiciary functions in Guadalupe County.

The project is in the planning and design stage, and will go to the Guadalupe County Commission for review and approval before any renovation work begins. In the meantime and during any renovations, the Magistrate Court will remain open at its current location at 1633 Historic Route 66 in Santa Rosa.
